DETAILED ACTION

Election/Restrictions

In the response filed March 21, 2008 to the office action mailed November 21, 2007, Applicant argues that (epi)K5-amine-O-oversulfate compounds of claims 32-35 have the amino group of the glucosamine subunit in free form and sulfate groups on oxygen atoms only. Due to an oversight by the examiner, claims 32-35 were incorrectly included in Group II in the restriction requirement dated September 14, 2007. In view of Applicant's arguments submitted March 21, 2008, it is clear that the (epi)K5-amine-O-oversulfate compounds of claims 32-35 are structurally distinct from epiK5-N,O-sulfates of claims 17-27.

Thus, further restriction within Group II, elected without traverse in the response dated October 9, 2007, is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 17-27, drawn to epiK4-N,O-sulfates and compositions comprising the same.

Group II, claim(s) 32-35, drawn to compositions comprising (epi)K4-amine-O-oversulfate compounds.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or

corresponding special technical features for the following reasons: The Groups I and II are drawn to compounds and compositions of different chemical structures. Thus, Groups I and II do not share a common technical feature.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
